# A SWITCHER CASE STUDY – ONE VERY HAPPY CLIENT

Josie Barker was initially worried about switching accountants and thought it would mean a lot of hassle and paperwork, but she's been pleasantly surprised. An interim manager, Josie works on a project basis via her Limited company, Capsis Consulting Ltd. When she set up three years ago, she used a local high street accountant. Despite being close by and convenient, Josie ended up paying fines for late tax returns combined with poor service; calls and emails weren't returned and things just weren't happening.

The crunch came when she began a new assignment last year, she got talking to a fellow contractor about her accountant. The colleague was shocked at how much Karin was being charged and recommended Tax Eilte.

*'When I chose my accountant, I didn't know there was any other option, and just assumed I was paying the going rate. I had no idea I was paying way too much'.*

## A SWITCHER CASE STUDY – CLEARLY A HAPPY CLIENT

A fellow contractor recommended Tax Elite to Josie as it was all done on the Cloud, but she thought it would mean taking on more responsibility for her bookkeeping herself – and wasn't keen. But after a conversation with Tax Elite, she began to see things a bit more clearly.

She realised that there wasn't a great deal of difference in what she'd be expected to do. But there was a vast difference in cost, in service and in attitude. Tax Elite's fixed monthly fee was around half of what she had been paying, and the approach was invaluable; honest advice, responsive support and real peace of mind.

She found that switching was simple too – a couple of signatures, and that was pretty much it. Tax Elite handled the whole process of transferring accounts from her old accountant, so it was completely hassle free. Now that she's up and running, she's more than happy to be getting a much better service for half of the cost.

**WHAT OUR CLIENTS ARE SAYING  
ABOUT TAX ELITE**

"I chose Tax Elite due to their scale in dealing with contractor-based finance yet have always received professional and responsive service that felt like I was their only customer. I have recommended them to both family and colleagues who now are doing the same. Tax Elite reply to my emails (always same day), are responsive and pro-active, with my previous accountant I had to upload lots of invoices and do my own bookkeeping in quickbooks which was a lot of hassle. Accounting might not be always interesting but at least Tax Elite have made it tons less hassle for me. Highly recommended."

## **JOSHUA BAKER**

Personal Trainer, Sole Trader

"Initially it all seemed a little daunting setting up a Limited company. and yes there are a few forms you have to sign...but that's all you're pretty much doing. Tax Elite Ltd took away for me what I thought was going to be a chore, filling in hundreds of forms and trying to figure out how to use accounting software! I just chuck every invoice in the post and then send off my bank statement and sales invoices and subject to a few queries it is all done, could not ask for more."

## **KRISHNA GODHANIA**

Martial Consulting Ltd

"I have been nothing but impressed with you and your team. You have been fantastic in your service, manner and promptness in response to any queries and questions, great work and happy to recommend you to others."

## **EUGENE HARRIS**

Sirius Promotions Limited

"I'm delighted to have switched accountant – you've proved to be excellent value for money."

## **JAMES HIGHFIELD**
